

Service Date: November 25, 1974

BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MONTANA

In the Matter of the application of)	
THE MONTANA POWER COMPANY for authority)	
to issue short-term borrowings in the)	DOCKET 6266
aggregate principal amount of not to)	ORDER NO. 4162
exceed \$120,000,000 at any one time)	
outstanding.)	

* * * * *

On November 8, 1974, the Montana Power Company, hereinafter called applicant, a corporation organized and existing under and by virtue of the laws of the State of Montana, filed with this Commission its verified application pursuant to Titles 70-117.1 through 70-117.6, R.C.M. 1947, requesting authority to issue, assume or guarantee promissory notes to banks, to issue bearer promissory notes as commercial paper, to make term loans or by such other means as may be deemed advisable to make short term borrowings in an amount which with the amount of short term notes now outstanding, will not in the aggregate principal amount exceed \$120,000,000 at any one time outstanding during the period ending December 31, 1975.

Applicant alleges in its application that it is a public utility as defined in Title 70-103, R.C.M. 1947, and is engaged in furnishing electric, natural gas and water service in the State of Montana. Applicant further alleges that it is subject to the jurisdiction of and regulation by this Commission with respect to rates, accounting, the issuance of securities and other matters pertaining to its public utility operations in

Montana.

The proceeds from the short term borrowings, together with internally generated funds, will be used to meet the cash requirements of current business transactions pending issuance of long term securities. These business requirements consist of the temporary financing of the acquisition of property, the construction and improvement of facilities, the maintenance of service, the discharge and lawful refunding of obligations and other lawful purposes of applicant.

The securities to be issued, assumed or guaranteed by the applicant shall be in the form of unsecured obligations in varying denominations principally in the following forms: (1) notes payable to commercial banks; (2) bearer notes, issued for sale as commercial paper, to be delivered to dealers who will in turn sell such notes to investors or will retain such notes for their own account; (3) term loans with commercial banks and others; and (4) such other forms of short term borrowings as may be deemed advisable by applicant.

Arrangements will be made for bank loans to be evidenced by promissory notes with commercial banks or others. Commercial paper will be issued as bearer notes for varying periods of less than one year in duration. Term loans with commercial banks or others, and short term borrowing arrangements will be made on such conditions as may be deemed advisable at the time of issuance. No finder's fee, or other fee, commission or remuneration has been or is to be paid to any third person for negotiating any of applicant's borrowing transactions with the banks or dealers in commercial paper. Expenses in connection with the making of such short term borrowings have been

estimated at \$5,000.

Applicant plans to issue long term securities, the proceeds of which will be used to retire the short term borrowings made or to be made under this application. The type, amount, timing and method of sale of such securities has not yet been fully determined.

Applicant furnished complete financial and statistical data with its application, in accordance with the applicable rules **and** regulations of the Commission. The Application sets forth an opinion of counsel who will pass upon the legality of the proposed short term borrowings, together with a certified copy of appropriate corporate resolutions pertaining thereto.

Having fully considered the application and all the data and records pertaining thereto on file with the Commission, and being fully advised in the premises, the Commission makes the following:

FINDINGS OF FACT

1. That the applicant, the Montana Power Company, is a corporation organized and existing under and by virtue of the laws of the state of Montana and is qualified to transact business in the state of Montana.

2. That applicant is operating as a public utility as defined in Section 70-103, RCM 1947, and as such is engaged in furnishing electric, natural gas and water service in the state of Montana.

3. That the Commission has jurisdiction over the subject matter of said application, under Section 70-117.1 through 70-117.6, RCM 1947, in that the short term borrowings and the securities proposed to be issued by applicant will have a maturity of less than one year, but that the aggregate of the \$120,000,000 of **short** term borrowings proposed to be made exceeds five percent (5%) of the fair market value and/or par value, of applicant's other securities outstanding.

4. That the securities transactions proposed by the applicant as hereinafter authorized, will be for a lawful purpose and are consistent with the public interest; that same are necessary appropriate for and consistent with the proper performance by applicant or service as a public utility; and that the aggregate amount of the securities outstanding and proposed to be outstanding will not exceed the fair value of the properties and business of the applicant.

5. That public notice of the filing of said application and a formal hearing thereon is not required, and that the application should be approved as hereinafter ordered.

CONCLUSION OF LAW

That the application of The Montana Power Company herein complies with Sections 70-117.1 through 70-117.6 Revised Codes of Montana 1947 and other laws of Montana as aforesaid and the same should be granted as hereinafter ordered.

ORDER

NOW, THEREFORE, at a session of the Public Service Commission of the state of Montana, held in its offices at 1227 11th Avenue, Helena, Montana on November 8, 1974, there being present Chairman Ernest C. Steel and Commissioner Victor H. Fall there regularly came before the Commission for final action, the matters and things in Docket No.6266 and the Commission being fully advised in the premises;

IT IS ORDERED that the application of the Montana Power Company for authority to make short term borrowings in the amount which together with the notes now outstanding will not in the aggregate principal amount exceed \$120,000,000 outstanding at any one time during the period ending December 31, 1975, and in the manner as set forth above and in the application, the short term borrowings to be evidenced by promissory notes with commercial banks or others by bearer notes for the issuance of commercial paper, and by term loans with commercial banks or others, and by such other borrowing arrangements, which shall be on the most favorable terms the Montana Power Company can negotiate depending on the varying borrowing conditions from time to time, be, and the same are hereby approved.

Neither the issuance of securities by the Montana Power Company pursuant to the provisions of this order, nor any act or deed done or performed in connection therewith, shall be construed to obligate the state of Montana to pay or guarantee in any manner whatsoever any security authorized, issued, assumed or guaranteed hereunder.

The foregoing order was unanimously adopted by the Public Service Commission of the state of Montana.

DONE IN OPEN SESSION at Helena, Montana, this 8th day of
November, 1974.

ERNEST C. STEEL, Chairman

VICTOR H. FALL, Commissioner
